

Project Requirement 1: Project Proposal

Objectives

1. Create a story of two arguing individuals and their witness-resolver, where:
 - a. Each individual must have at least ten (10) facts and five(5) rules
 - b. At least two(2) conflicts of the facts/rules above

Story

On what the little **town of Bellwood** thought was just another ordinary Tuesday, a **swarm of aliens suddenly attacked**, causing widespread destruction. Fortunately, a hero came to the rescue. *However, two people have claimed credit for saving the town: Ben Tennyson and Kevin Levin.* Both assert that they were the ones who defeated the villain **Vilgax**, putting an end to the chaos in Bellwood. Each presents their own facts and rules to support their version of the story. Yet, their testimonies contradict each other on several key points, and only one can be true. Gwen Tennyson serves as the witness-resolver, whose statements are always truthful and override those of the others.

Ben Tennyson

Facts

1. Ben used the Omnitrix to transform into Heatblast during the battle.
2. Vilgax attacked nearby the downtown Bellwood bank.
3. Ben arrived at the scene before Kevin.
4. Kevin was driving his muscle car when the fight started.
5. Ben knocked Vilgax into a power station, causing an explosion.
6. Ben transformed back to human form after defeating Vilgax.
7. Kevin did not land the final blow.
8. Ben's Omnitrix malfunctioned briefly after the explosion.
9. The explosion marked the end of the battle.
10. The Bellwood police arrived five minutes after the fight ended.

Rules

1. If someone delivers the final blow to the villain, that person defeats the villain.
2. If a hero arrives first and uses a transformation, they lead the battle.
3. Whoever leads the battle and defeats the villain is the true savior of Bellwood.
4. If Kevin was driving when the fight started, he was not at the scene.
5. If Ben's Omnitrix malfunctions, it is due to overuse in combat.

Kevin Levin

Facts

1. Kevin arrived first and blocked Vilgax's attack with his metal armor.
2. Ben transformed into Diamondhead, not Heatblast.
3. The fight happened outside the bank near the power station.
4. Kevin used his car to ram Vilgax into a wall.
5. Ben lost his Omnitrix signal mid-fight.
6. Kevin punched Vilgax into a transformer, causing the explosion.
7. Ben was knocked out before the explosion.

8. The explosion destroyed Vilgax's ship.
9. Kevin carried Ben out of danger after the fight.
10. Vilgax escaped through a portal after the blast.

Rules

1. If someone delivers the final attack before the villain flees, they win the battle.
2. If a hero is unconscious during the explosion, they cannot be the winner.
3. The one who rescues others after the fight is the true hero.
4. If the fight happened outside the bank, Ben's claim about the bank is false.
5. If Vilgax escaped, no one truly defeated him.

Conflict Areas

1. Who arrived first
2. Transformation used by Ben
3. Explosion / final blow
4. Vilgax's fate

Gwen Tennyson

Truth

1. Ben arrived at the scene before Kevin, by approximately two minutes.
2. The battle began near the power station, near the downtown Bellwood bank.
3. Ben initially transformed into Heatblast, then later became Diamondhead during the fight.
4. The explosion was caused by Ben's Heatblast fire striking the power station's transformer, not by Kevin's punch or his car.
5. Vilgax was defeated and later captured by the Plumbers — he did not escape through a portal.
6. Ben's Omnitrix malfunctioned because it was overused during combat.
7. Ben was not knocked out before the explosion; he remained conscious throughout the fight.
8. Kevin helped civilians after the battle, but he did not land the final blow.
9. The Bellwood police arrived several minutes after the fight ended and confirmed Ben as the one who defeated Vilgax.
10. Both Ben and Kevin contributed to saving Bellwood, but Ben Tennyson is the true victor of the battle.
